

A Joint International Conference between Soran University and International Universities Council

From Ancient Civilizations to Modern Societies

The Evolution and Transformation of Social and Cultural Identities in the Middle East

Conference Themes:

- Ancient Civilizations and their enduring legacies.
- Postcolonial nation-building and identity construction.
- The nature of Middle Eastern people and its reflection on their identity.
- Identity between globalization and local traditions.
- The impact of urban life and growth on social and cultural identities.
- The impact of digital and social media on identity representation.
- Media, literature, and artistic expressions of identity.
- Pluralism and ethnic and religious coexistence in the Middle East.
- Multilingualism and linguistic identity in the Middle East.
- The impact of religion and intellectual schools and movements on the identity of Middle Eastern people.

Conference Objectives:

- To explore the historical evolution of social and cultural identities in the Middle East.
- To examine the impact of colonialism and modern nation-state formations on identity.
- To analyse the role of religion, ethnicity, and language in shaping Middle Eastern societies.
- To investigate the impact of globalization and urbanization on identity shifts.
- To discuss the role of media and digital culture in contemporary identity formation.
- To showcase artistic and literary contributions to cultural identity in the Middle East.
- To foster interdisciplinary dialogue among scholars, policymakers, and cultural practitioners.
- To develop collaborative networks for future research and cultural exchange.
